Working with The Team Performance System

Introduce the Drexler/Sibbet Team Performance Model®

Model As Roadmap

- Depicts what a team must do in order to be aligned and, thus, successful
- Helps teams identify and prepare for challenges
- Provides a common and productive language, especially when problems arise

Allan Drexler and Grove founder David Sibbet spent more than ten years refining a comprehensive model of team performance that shows the predictable stages involved in both creating and sustaining teams. The Model illustrates team development as seven stages, four to create the team and three to describe increasing levels of sustained performance.

Survey Results

- Spark discussions among team members
- Plan a path for developing team effectiveness
- Point to practices that lead to high performance

The OFS Team Performance Survey™ is a tool for assessing a team's perceptions about itself. The survey consists of statements that define critical

aspects of team performance and results in a customized report that helps identify a team’s special strengths and opportunities for growth.

Best Practices: Vision and Bold Steps

Practice Overview | Practice Steps | Practice Tips

Align for Creative Action

Agreeing on an over-arching vision of where you are headed and the four or five bold steps you will begin to take immediately provides a clear, high-level framework for action. A bold steps template avoids the detail of an implementation plan, and offers a good springboard for action-planning and roadmapping sessions. A strong vision linked to immediate steps creates organizational tension that drives creative action.

How We Can Help Teams Succeed

Team leaders need their teams to be productive as quickly as possible. We can help teams hit the ground running with these essentials for success:

- **Mutual trust**
- **Shared goals**
- **Clear roles**
- **Better communication about work**

With the Drexler/Sibbet Team Performance Model®, and its corresponding assessment tools and best practices, teams can identify and solve the issues that hold them back:

- **Resistance to taking action**
- **Missed deadlines**
- **Conflict**
- **Burnout**
